Pursuant to Order No. 94-11, item 4, Lockheed Martin Corporation hereby submits this quarterly report to the Regional Water Quality Control Board, Santa Ana Region.

Technical Data Generated

No significant new technical data was generated during this reporting period.

Progress Made

Progress continues on the work plan (in preparation) that describes the installation, sampling and reporting for additional monitoring wells at the Site. The work plan proposes 4 deep monitoring wells and 5 mid-level wells and outlines activities that we propose will lead to closure of Site characterization. The work plan will incorporate Regional Board Staff comments received during the meeting at the Regional Board offices (Santa Ana Region) in Riverside on January 27, 1999.

Problems Encountered

No significant problems were encountered during this reporting period.
